TO THE EDITOR OF THE BRITISH COLONIST—Sin: In reference to the extraordinary notice which appears in your paper of this morning, signed by "J W. Tripp," and dated from Stickeen the Sth August, int., I beg to state on behalf of Mr. James T Bybee, my co-partner, and myse't, that the partnership formerly existing between us and the said J. W. Tripp was legally discoved.

merry existing netween is said the said J. W. Tripp, was legally dissolved, so far as respects the said J. W. Tripp, and on the following grounds, viz:

1st. That the said J. W. Tripp received certain moneys for lime, sold on account of the partnership, without accounting to his co-partners for the same, 2nd. That he prefetched his duties in the Functor 2nd. That he neglected his duties in the Eureka Works in San Juan Isle, and in the early part of June last left the same altogether, without apprising or or my co-partner of his intention so to do, at the same time he took with him a quantity of tools and provisions, our property. 3rd. That he obtained goods at Victoria in the

name of the firm without paying for them, and took the same with him for his own benefit; and that he the same with him for his own beneat; and that he has not since returned; my partner and solf having been compelled to pay for such goods as improperly obtained by the said J. W. Tripp.

On these grounds counsel advised that a dissolution might legally be effected, and which has been done considered.

accordingly. Any further interference by or on the part of the said J. W. Tripp, by himself or Agent, will cause them to be dealt with according to law. GEO. ROBERTS.

SAINSEVAIN'S WINE BITTERS; OR
California Vermouth... These Bitters are obtain
ing a wide-spread celebrity in all parts of the State.
It is sufficient evidence of their great merit to observe
the large quantities shipped by our principal WinSainevaln, however, it and other manufacturers
of new and valuable articles, has to contend with
unscruptulous parties, who are introducing as partions
mixture purporting to be his Wine Bitters, which
noxious compounds are put up in the same style of
bottles, labels, etc., so as to pass for the Sainsevain
brand. We call attention to this fact so that our
citizens may be upon their guard, and that when
they ask for Sainsevain's Bitters, see that they get
them. As pure Wine is destined to drive from use
all aicoholic decoctions, so these Bitters will soon
take the place of the adulterated preparations which
now flood our market. Those desiring a pure and
agreeable tonic should try Sainsevain's Wine Bitters
or California Vermouth.

No Revelations Yet. We dare say that most of those who have of late years come into this Colony from abroad have been under the impression that they had entered a country where they were to find British institutions carried out in the true British spirit. When they found a Governor, a Legislative Council and House of Assembly they thought surely here is the reproduction of the Queen, Lords, and Commons of Great Britain-here is, to say the least, the machinery requisite to carry on the Government of the island, and if it be only guided by the principles which have obtained under similar circumstances elseobtained under similar circumstances elsewhere, one may reasonably expect corresponding results. But how soon is such an idea dispelled. Let this machinery of government be guided by one who knows his duty and is willing to do it, and no fault could be found. However, let a clever juggler, who has his own aims to serve, or his own crude whims to indulge, but take the helm, and such results will follow as we have seen day after day enacted in this Province. It is now going on two months since Mr. Harris' motion was passed by the House of Assembly "calling for copies of all correspondence between His Excellency the Governor and the Home Government on the Governor and the Home Government on

the Governor and the Home Government on the subject of the Town site; and copies of all correspondence between His Excellency and the Hudson Bay Company."

Ample time has been given for even the most circumlocutory department in existence to produce the information required. But such a request might have been preferred before the Great Mogul with far more chance of success. Catch our Governor unveiling to the eyes of the "common herd" the mystic secret of the inner temple of James Bay. "Knowledge is power." "Ignorance is bliss," say the old saws, and no man seems to have more implicit confidence in their truth than he who holds in his hand the destines of these Colonies, so that he the destines of these Colonies, so that he the destinies of these Colonies, so that he may retain the knowledge and rule whilst we are ignorant and happy. But does Governor Doughas for one moment suppose that such a state of things will be permitted by the inhabitants of this country to proceed much longer? Does he imagine that because they have been fools enough to substitution to be a given by cause they have been fools enough to submit hitherto to be cursed by a system of mismanagement and incompetence, compared with which a despotism would be a blessing, that they will continue to take no measures to be freed from the prime cause of it all. The inhabitants of this Colony are taxed, and taxed heavily, to support a shadow of a government, while the whole substance resides in the hands of one man. They want their interests looked after in rea shadow of a government, while the whole substance resides in the hands of one man. They want their interests looked after in return for the sacrifices they make. Their interests have been neglected. They have been deprived of the opportunity of making that progress which their situation and the occasion has entitled them to. Somebody is to blame, and they have a right to know who. They have a right to know why the city of Victoria is kept waiting up to this late day for the property to which she is justly entitled. If the Governor is not willing to give the information required—if he refuses to give the people of this Island a satisfactory explanation of the manner in which the town-site affairs have been managed—it is high time that some more were made to have his position filled by one more fitted to govern this Colony.

Firday Morning, Sept. 19, 1862.

Wouldn't Let them Aboard. Yesterday morning a cruel practical joke was played in Esquimalt harbor on five Victorians who had ridden miles through the heat and dust to catch a glimpse of the rosycheeked English beauties who prrived on the Tynemouth. Arrayed in their best, with clean white shirts and garrote collars, to say nothing of shining boots and delicately perfumed handkerchiefs, they employed an Esquimal: boatman to row them to where the steamer was riding at anchor, not dreaming but that, at the very first sight of their respectable physiognomies the captain would permit them to ascend the gangway steps and inspect with the eyes of connoisseurs his lovely freight. Unfortunately, their expectations were not fulfilled, for it appears that several Victorians were aboard the steamer when the boat containing the respectable notables hove in sight, and one of the number, a bit of a wag, approached the Commander of the steamer and asked if he knew who those men were in that boat?

"No ;" replied he, "they are strangers to me."

"Well," said the wag mysteriously, pointing over his shoulder to a group of the fair damsels who had gathered to view the approaching strangers, "you'd better look out for them.'

"What do you mean?" asked the cap-

"Nothing, nothing, only you'd better keep an eye on those fellows, that's all." The Captain looked puzzled and glanced

at his informant doubtingly. "Yes," continued the latter, vaguely, as suming a sanctimonious air and tone of voice, "take my advice, sir, and keep them

off." "Do I understand you, sir," said the captain, "that the respectable looking men in that boat are not to be trusted among these females?"

" Most certainly they are not; why, (pointing to the oldest man in the party, who is the father of a large family) that steady looking old gent is the worst man in the crowd."
"Are you quite sure of the truth of what

you say, sir: that gentleman looks like a minister-and I shouldn't like to offend a minister." " A minister! yes; he does look like a min-

ister; but that air is assumed that he may the better consummate his designs. They are none of them to be trusted aboard this vessel, or anywhere else where there are innocent females. Lassure you, captain. "Is it possible," asked the astonished cap-

tain, "that such depravity exists in so young a colony? I shall order the police in charge not to allow one of them to come aboard." And orders were forthwith given to officer Douglas not to allow any of the party in that particular boat to approach-orders which the officer faithfully carried out to the letter, notwithstanding the entreaties, expostulations and protestations of "honorable intentions" from the whole crowd.

One of the married men (there were three in the boat) sent his card to the captain, but was told that the latter would see him in the morning. The gangway steps were then raised and the only course of ascent thereby closed. Had the boat had a small pox patient aboard it could not have been treated with greater contempt, or received the cold shoulder more effectually, and after hovering about the vessel for some time, like baffled birds of prey, the boat-load of unhappy men returned to the shore considerably chopfallen, while the fortunate Victorians who had succeeded in getting evening. aboard, with many passengers who

through the joke, rent the air with laughter ARRIVAL OF THE "TYNEMOUTH."-This fine, iron steamship lest San Francisco on the morning of the 12th and cast anchor in the mouth of Esquimalt harbor at 81 o'clock night before last. She is consigned to Dickson, Campbell & Co.; brings 242 passengers and 200 tons freight; and yesterday entered Esquimalt harbor, where the freight will be discharged. When the vessel left England there were 270 passengers on board-62 of whom were females. One of the latter (a widow named Elizabeth Buchanan) died two days before the vessel reached the Falkland Islands, where she was buried. She the number sent out under the aus pices of the London Female Emigration Society. Thirty-four of the male passengers left the vessel at San Francisco-some of whom were accidentally left behind by the steamer. As a matter of course, we went aboard the steamer yesterday morning and ad a good look at the lady passengers. They are mostly cleanly, well-built, pretty looking young women-ages varying from fourteen to an uncertain figure; a few are young widows who have seen better days. Most appear to have been well raised and generally they seem a superior lot to the women usually met with on emigrant vessels. Taken altogether, we are highly pleased with the appearance of the "invoice," and believe that they will give a good account of themselves in whatever station of life they may be called to fill-even if they marry lucky bachelor miners from Cariboo. They will be brought to Victoria and quartered in the Marine Barracks, James Bay, early this morning by the gunboat Forward. A large number of citizens visited Esquimalt yesterday and endeavored to board the vessel, but were generally ordered off and returned from their fruitless errand with heavy hearts. There was some stein, and England has no opposition to trouble with the crew while coming out, we make. understand, but nothing very serious.

THE POST OFFICE .-- Complaint is heard from many persons whom necessity compels to visit the Post Office on steamer days, that only one window is open while the rush for letters is taking place, thereby seriously inconveniencing the public by unnecessary delay. We would therefore suggest to Mr. Wootton, who is generally very obliging and energetic in the discharge of his duties, the propriety of in future having both windows open on steamer days. By such a course he would facilitate the delivery of the letters and lessen his own work, as wel as confer a great favor on the public to whom time is money and unnecessary delays on such occasions very disagreeable and costly.

THE THEATRE.-There was another fine house and another five performance last evening. Miss Lotta and M'lle Cadez made many new admirers; Frank Hussey appeared in all his glory, and Messrs. Conner, Durand, Wallace and Leon were even better than on their first appearance. A most agreeable feature connected with these entertainments is the entire absence of "smut," which, in many other countries, has too often detracted from the merits of good acting. Everybody should see this troupe and take his wife and children with

SENT TO PRISON .- Four hands belonging to the Tynemouth were arrested yesterday by the police, on complaint made by the captain, and sent to jail, for refusing to do duty while that vessel was on her passage from San Francisco for this port. The men allege that a number of the crew deserted at San Francisco whose places were not supplied before leaving that port, and having double duty to perform they refused to do

B. C. AND V. I. AT THE WORLD'S FAIR.-The Commissioners of the International Exhibition have awarded medals to the Executive Committee of Vancouver Island, for a spar of Douglas pine 220 feet long; and to Edward Stamp for a section of Pinus Douglassii, with roof shingles and other timber specimens. They have also honorably mentioned F. Claudet for a series of views in New Westminster.

THE RUSSIAN SAILORS .- A number of the sailors attached to the Russian corvette Kalevala were turned loose yesterday and the day before and visited our city. They are a fine, robust looking lot of men, not very tidy in their dress or personal habits, but would, no doubt, prove good fighters if called on to test their capabilities in that line. The vessel is Finnish built, and is a very neat looking craft.

FROM BENTINCK ARM .- Mr. Hood arrived here last evening by the steamer Enterprise, having accomplished the opening of the Bentinck Arm route. His whole train, laden with the goods taken from here by the Labouchere, as well as a portion of those purchased from Mr. C. B. Young, have been safely conveyed over the road to Alexandria.

THE NEW TIGER .- The Tiger Engine

Company tried their new engine yesterday afternoon, which worked satisfactorily and gave promise of great efficiency in case of a fire. The members, with a number of invited guests, partook of a collation after the DEPPARTURE OF THE "BACCHANTE."-The

flag-ship Baccharte, with Rear Admiral Maitland aboard, sailed vesterday morning, at 7 o'clock, for the South American coasts. Salutes were fired from the Mutine and from the Russian corvette, the compliment being gracefully acknowledged by the flag-ship.

A SCANDINAVIAN KINGDOM.—A thousand students from Sweden and Norway lately visited Copenhagen, and were received with applause. It is a significant fact. The idea visited Copenhagen, and were received with applause. It is a significant fact. The idea of a Scandinavian Empire, impossible while Russia was active, has, in her quiescence of late, heen strongly revived. It is the pet idea of King Oscar, and has found favor in Denmark. Copenhagen, jealous of her position, has been the principal obstacle, and now Copenhagen applauds. The King of Denmark is childless; France, it is said, consents; Prussia would be content with Holstein. and England has no consistion to

AN UNFORTUNATE HORSE .- At Skowhe INQUEST.—The Coroner's inquiry into the cause of the death of James Webster will be held to-day, commencing at 10 o'clook, a. m., at the Boomerang Inn. The proceedings will be very interesting, OUR LONDON LETTER,

[FROM OUR LONDON CORRESPONDENT.] LONDON, August 2, 1861.

On Wednesday last there was a performance at Exeter Hall in aid of the funds of the British Columbia Female Emigration Society-the reflex benefit of which will be felt in Vancouver Island; for whatever scheme tends to promote the interests of British Columbia, the sister Island must of necessity participate in them. If I may judge from the appearance of the Hall which was crowded in every part with a most respectable class of persons, the attempt to raise funds for this laudable object must have been in every respect most successful.

The question of emigration is one which has ever been dear to England, and at the present moment, when distress prevails to such an alarming extent in Lancashire, it is the blue and alarming extent in Lancashire, it is doubly so. Female emigration schemes more especially call for our immediate at-tention. The main body of the sufferers in consequence of the stoppage of the supply of cotton are females-married and unmarried. They constitute a large proportion of the hands employed in the factories. Even those who are married earn their own living and help to support the young members of the family by daily labor in the Lancashire hives of industry. Young women form the staple of the craft, however. Now that two-thirds of the mills have stopped working altogether and the remaining one-third work short time, you can easily imagine the amount of distress that prevails. Active measures are being taken to alle-

Active measures are being taken to ano-viate the amount of suffering. A neeting of the landed proprietors of the cotton dis-tricts was held last week at Bridgewater House—Lord Derby presiding, when sums amounting to more than £10,000 were promised on the spot. This is as it should be. In consequence of the manufacture of the raw material in the large factories that have been reared with all the appartenances, the value of the land for building purposes has been enormously enhanced. The example set by the proprietors of the soil and the rich men in London and other towns at a distance from the scene of the disasters, has had the beneficial effect of stimulating the cotton lords of Manchester to a sense of their duties. Until recently the Central Com-mittee of relief was established in London and the rich men in Manchester at first pooh poohed the statements regarding the distress and seemed to look upon foreign inerference as a matter of impertinence. They have, however, I am glad to state, been shamed into action in this matter The cotton lords are coming forward at the eleventh hour and contributing liberally to

Her Gracious Majesty, whose ear is ever open to the cries of distress, has come for ward and contributed £2000. The distinguished S. G. O, of the Times, has also, in two or three powerful letters, advocated the cause of the suffering operatives. The consequences of these various means are large contributions to the lunds at the disposal of the various Committees. £5000 have been sent from India, and sums varying in amount will no doubt come in due time from the British Colonies. Vancouver Island will British Colonies. Vancouver Island will unquestionably not be behind in this work of mercy. Nothing tends so much to co-ment individuals and different members of the same family of nations as generous help in the time of need. One of the last acts of oresent session has been the passing of I in Aid—so as to enable the authorities to raise money during the recess should the distress continue. One circumstance has tended very much

to remove our apprehensions respecting the coming winter, and that is the return of genial summer weather. The summer as a whole has been one of the most rainy on record, and great fears were, until within the last fortnight, entertained that we should have a deficient harvest, in consequence of the want of the sunshine necessary to ripen the fruits of the earth. All our fears in this respect are now, however, removed. During the last ten days we have had glorious weather—harvest operations are being carried on with great alacrity, and there is every prospect that we shall have an abun-dant yield. We cannot be too thankful for

During the last fortnight there has been a good de. I of augry sparring between Mr. Cob-den and Lord Palmerston. The former has been pitching into the latter with a virulence and pagnacity which, to say the least of it, is peculiar in a prophet of peace. Mr. Cobden is very auxious to make his countrymen believe that they need be under no apprehensions respecting a French invasion. The very idea of such a thing is, in the estimation of the member for Rochdale, quite ridiculous, and not to be entertained for a moment by any sane man. He has accordingly, in season and out of season, attacked Lord Palmerston regarding his assertions with respect to the number of iron-clad vessels built or building by the French. He made a set attack even last night, but, as you will see from the reports of the proceedings, Lord Palmerston was more than a match for him. His lordship is a most re-markable man, and maintains his proud posi-tion chicily on account of his equanimity of temper and marvelous adroitness. In these respects he has no rival, and as a result, he is the most popular man in England.

The Palmerston administration, however,

has not strengthened itself by the countenance it has given to Lord Bemer's odious night poaching bill. This is a most exclusive, un-just and aristocratic measure. It provides that policemen shall take into custody all persuspected of poaching intentions and ices. The effort of the movers of this shotling to make game property, so that any one shooting or snaring game may be treated as a thief. It defines game to be pheasants, ant eggs, etc., etc. Altogether it is a most absurd bill; but, unfortunately, notwithstanding the violent opposition it has met with by all the sensible men in the House of Commons, it passed its third reading about four o'clock this morning. England is unquestionably a noble country, worthy of the imitation of surrounding nations, but she harbors not a few absurd notions, of which the hated game laws are not the least conspicuous. The night poaching bill of which I have been speaking is one of the most glaring attempts at class legislation. Rich landed proprietors have by law the exclusive right of shooting game—and of selling it too—so that they, to all intents and purposes, become poulterers. But more, by this pouching bill they will compel the community to pay for its preservation. When the policemen are invested with all the powers which the measure ensures for them they can dispense with game-keepers. Was there ever anything more absurd?

DO DR. HUSTETTER'S STOMACH BITTERS should be in the possesion of everybody in the uning region. As a preventive of various dangerous diseases to which the gold secker is liable, it has no diseases to which the gold seeker is liable, it has no superior. While it is quite paintable even as a be-verage, it is speedy and powerful in its effects upon the system. In all cases of Diarrhean, Dysentery and the pervading fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the litters. Holloway's Pills are undeniably the finest Medicine in the world for Biliousness and Indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver and stomach complaints, there is no medicine known that will give such immediate relief as these renowned Pills; young and old, rich or poor, patronise them, and so many cures are effected by their use, that their praise is sounded from the temperate climate to the frigid zone; in truth, persons who travel consider them a necessary requisite. During the overland journey to India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

Only Give it a Fair Trial.—We ask no more of any one, than to give Jayne's Expectorant a fair trial, to prove that it will cure the various diseases for which it is recommended sooner and more effectually than any other remedy. You therefor when it is recommended sooner and more effectually than any other remedy. You there fore, who suffer with Pulmonary Affections, should not delay, but immediately procure a bottle of this Expectorant, and by its use not only save your selves much suffering, but probably from an early eath.

Consumption, de., de In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced by our ever-varying climate.

Tinfluenza and Consumption.

It is indeed a melancholy truth that thousands fall victims to consumption every year from no other cause than neglected colds; yet we find hundreds, nay thousands, who treat such complaints with the greatest indifference and let them run on for weeks, and even months, without thinking of the danger, and even months, without thinking of the danger, or old; you allow business, pleasure or earliesoness to prevent you from giving it any attention; it then settles upon your breast, you become hourse, have pains in the sides or chest, expectorate large quantities of matter, perhaps mixed with blood; a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this complaint If, then, you value your life or health, be warned in time and don't friles with your cold, but immediately procure a bottle or two of that famous remedy, Dr. WISTARYS BALSAM OF WILD CHIERITY, which is well known to be the most speedy cure ever known, as to the and will testify whose lives have been also the condensus of the condensus of

I have further to add that upon my arrival hore in December, 1859, I applied for admission to the Bar, producing at the same time my certificate of 5 years elerkship to James Duncan, Esq., Writer to the Signet, and also Certificate of Examination by the Professor of Scotch Law in the University of Edinburgh. In January, 1850, I sent my first Petition to Her Majesty, through this Government, (which document I believe never reached England, as I never heard of it afterwards.) In January, 1861, I sent as accond, Petition, and in July, 1861, I sent as accond, Petition, and implicate, that is, one copy through this Government, and the other through the influential parties above mentioned. The despatch of the 7th February has now been in these Government offices for upwards of three months, and, as my legal rights have not yet been accorded to me, it will shortly be my duty to make a furth appeal to my Queen.

MISCELLANEOUS.

THE WORLD'S FRIEND! Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved, and ultimately cured, by the proper and diligant use of this cooling and healing Unitment, whose action should, in such cases, be assisted by juncatous doses of Pills: ere many days have clapsed the anxious patient will experience a wenderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

Coughts, Colds, and Asthma.
These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rabbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in cluest complaints, none can be used with equal safety and certainty. Both 2lbls and Ohrtment are accomplained by very clear and simple direction for using them.

A Man who refused to have his Leg off. A Man who refused to have his Leg oil.

"From the Kirush Advertuser, June 2nd, 1860."

BENDAMIN COX, Esquire. Magistrate, said in the loard Room at Kirush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kifrush, he purchased at Ennis, Holloway's Fills and Ointment, or, as he said, it could not be worse with him. This man, said Mr. Coy, became by their use as sound and as healthy as any man in the room. These celebrated Fills and Ointment will cure any wound, sore, or ul ere, however long standing, if properly used according to the printed directions.

Cont and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each reset. the pain-giving domes in contact with, and produces the hot, switten, clastic entargement about the joints so characteristic of gonty diseases. The philosophy of cure consist in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates the system through the porce, acts in unison with the Pills, and soon effects a cure.
